

MJL CONSULTANTS, INC.

Creators of POP-UP LEARNING SOLUTIONS

Energized education for the 21st century

Our team of educators designs creative learning solutions including faculty training, coaching and assessment.

Our programs are **STEAM** focused and Common Core aligned and can be used with a range of age groups and ability levels.

Our **Pop-Up Learning Solutions** works to:

- » Improve student engagement
- » Prepare students for college and careers
- » Offer innovative, hands-on learning
- » Integrate learning across the curriculum
- » Foster authentic learning environments

Started by Educators & Artists

Our Team has a combined 40 years of PK-16 education experience in classroom teaching, administration, school and summer programs.

“ Mary Ellen, Lisa and Jackie were awesome consultants to work with! They provided a curriculum which was innovative, original and engaging for students. My staff was trained and supported throughout implementation and was also guided in the collection of data. Overall, our summer program was a great success! Mary Ellen, Lisa and Jackie are passionate educators and student advocates. It is their collective expertise, creativity and professionalism that made our experience and the experience of students most valuable. ”

*Dr. Ramone Alexander
Director of University at Buffalo
Liberty Partnerships Program*

WE PROVIDE A SOLUTION!

Creative and Integrated **STEAM** Programming for PK-16 Engaged Learning

Simple steps for authentic, interdisciplinary teaching and learning with ways to measure meaningful growth
On-going instructor training and support available

Staff Development:

We design and deliver engaging, high quality workshops focused on best practices for 21st Century education.

- » Single Day Workshops
- » Multiple Day Consultations

Curriculum Coaching:

We partner with you to develop and facilitate interdisciplinary units with emphasis on:

- » Science, Technology, Engineering, Arts and Math
- » Common Core Learning Standards
- » 21st Century Skills for College and Career

Enrichment Programs:

We provide instructor manuals, training, and support for organizations to facilitate customizable interdisciplinary camps/programs.

MJL Consultants can help!

We work with a diverse client base including public and private PK-16 schools in urban, suburban and rural settings. We also work with not-for-profit organizations and grant-funded programs. Outcomes reflect substantive growth for both individual students and larger learning communities.
